KETAMINE INFUSION THERAPY

REFERRAL PROCESS v1.1 Wagga

APPROVED FOR USE

REVIVE KETAMINE INFUSION THERAPY REFERRAL PROCESS FOR PATIENTS

Please find below the referral steps to participate in the ReVive Ketamine Infusion Therapy program.

- If you have a treating Psychiatrist, you will need a letter from your Psychiatrist recommending you for Ketamine Infusion Therapy and confirming that they will continue to provide your ongoing treatment and care.
- All patients require a GP referral to see Dr Alexander Lim, including a detailed medical history and a list of current medications. You also need to ask the GP to arrange an ECG and a pathology request for FBC, LFTs, U&Es, sex hormones and urine m/c/s prior to the appointment.
- You will need to book an initial telehealth appointment with Dr Lim for initial assessment of eligibility. You may also require a second opinion, which he will arrange if necessary.
- If it is recommended that you are suitable to participate in the Ketamine Infusion Therapy program, ReVive will liaise with Calvary Riverina Surgicentre to arrange the booking.
- If you are a DVA patient, approval needs to be sought from the DVA Health Approvals team for funding. (This can take approx. 4 weeks)

Important information:

- The infusions take place at Calvary Riverina Surgicentre from 6 - 8am.
- The initial infusion series is six infusions over a two week period, typically taking place on Mon, Wed and Fri each week.
- Followed by maintenance infusion, approx. every 3-6 weeks.
- The patient must have a family member / friend available to collect them from each infusion.
- The private cost of the infusions are approximately \$2000 each treatment day, including hospital, Anaesthetist and Psychiatrist fees.
- Please note that there is no Private Health Insurance rebate on the hospital admission.
- All referrals needs to be sent to:

Dr Alexander Lim
